

Get up &  
**go!**

## How to play

This game is played outdoors.

Draw a hopscotch on the path.

Throw your bean bag or other object on one of the numbers.

Hop through the squares up to number 10, skipping the one with the object on.

Pick up the object on your way back to number one.

Pass the object to the next player and start again.

The winner is the player to hop from number one through to 10 in the quickest time.

If you are playing on your own, try to beat your best time.

### Equipment

A bean bag and chalk.

You can make more objects using anything you can find around the house like a cuddly toy or rolled up sock.
