

Safeguarding Supervising the Environment

You have a mixed session with children aged between 5-12 years, they are mixed gender and ability, there are several things going on around the room.

At one end you have an inflatable, which is very popular.

- What do you need to consider before the children arrive?
- How are staff going to manage the activity?
- How do you ensure all the children's needs are met?

TASK

Using the age group you work with in your setting, think of other scenarios which are appropriate to your area of work:

E.g. Soft play and ball pool, woodwork bench and cooking

Apply to the questions above.
