

Inclusive Practice

SLC 1 – Interaction – Environments

Please note: the SLC cards should be worked through in order from cards 1 - 6

How does your environment lend itself to different opportunities for meaningful interaction? The play space we create can influence interactions for example, creating a cosy den when we can whisper to one another or share a quiet story, open space for children to run together and play tag, a loose parts corner for children to share the resources etc.

TASK

Use the environmental audit below, to review your play space and reflect on the opportunities you provide to promote interactions.

- Environmental audit (leicestershire.gov.uk)
